

MAKES DEADLIER BOMB THAN ANY EUROPE HAS

Ordnance Expert at Frankfurt Arsenal Has Offered It to U. S. for Exclusive Use.

Army ordnance experts after many experiments with about a score of aerial bombs, it is reported, have found a bomb of high explosive power, combined with the use of deadly gases, the invention of an American, which is said to excel in destructiveness any similar weapon known here or in Europe. The tests proved so uniformly satisfactory, it was said, that the War Department has been asked to adopt the bomb for use in the aviation service. P. E. Barlow, an employee of the Frankfurt arsenal, Philadelphia, the inventor, has offered its exclusive use to the United States government. The Barlow bomb is six feet in length and approximately five inches in diameter, shaped like a torpedo. In addition to an explosive charge of T. N. T., it contains a gas chamber in which a new and secret combination of gas is used. It is estimated that the bomb has a

fatal destructive radius of at least 100 yards. One of the chief features of the bomb, in which it differs radically from bombs which depend for bursting force on contact with the earth or other objects, is that it may be exploded in the air, with full power. This is said to enhance its destructive power to a much larger degree than any known form of contact bomb, as it may be exploded over the heads of troops and spread cases earthward over a larger surface. By means of an electric timing device the operator of an aeroplane, it is asserted, will be able to regulate to a second the time of the explosion of the bomb. Another unique feature of this weapon permits of its use as an aerial torpedo when not desired to use it as a "drop" explosive. The bomb may be made with a new type of electric motor and propeller, which would enable the aviation operator to fire it horizontally, or to direct it toward a target at any angle. The bombs are arranged for attaching to the undersides of aeroplanes, and are released by foot pressure on a trigger.

D. C. Troops March and Drill.
A short road march and some close order drilling on the parade ground at Fort Myer was on the program today for the District militia encamped at Fort Myer. The troops are expecting momentarily orders to pack and proceed to the Mexican border to relieve militia troops which are to come home.

MRS. CORINNE T. WARRING ACCUSED OF INTOXICATION

Arrested Late at Night in Woods Whither She Had Gone With Infant Daughter.

A charge of intoxication was preferred against Mrs. Corinne T. Warring, forty years old, a roomer at 28 Grant place, who late last night was found in Blagden's woods, more than a mile from the terminus of the Mount Pleasant car line, with her eighteen-month-old daughter Dorothy. The police learned her whereabouts from Frank Riley, a messenger boy, who had been employed by Mrs. Warring to assist her. The boy returned to the city and told his employer of his strange errand. The police were communicated with and Riley told Detectives Burlingame and Kelly that the mother had said she was going to kill the child. In less than ten minutes after the boy told his story, Chief Herfurth had the detectives and the boy in the woods. When found the mother made it known that she objected to police interference, declaring she was in the country to give the child an airing and saying she would go home when she got ready. She was arrested and taken to police headquarters. The detectives stated that the child was poorly clothed and was suffering from exposure. They turned the infant over to a nurse of the board of children's guardians and locked up the mother at the house of detention. Mrs. Warring had been a roomer at the house on Grant place several weeks. Chief case will be tried in Police Court Friday morning.

Seeks to Break Father's Will.

The validity of the will of Albert N. Selp is attacked by his daughter, Bertha Catherine Loomis, in a caveat filed today in the Probate Court of the District of Columbia. The daughter charges the will was procured by undue influence, and the testator was not responsible mentally when he executed it.

Mrs. Loomis was given \$25 in the will, while the widow and two other children were given the bulk of the estate, which is said to be valued at \$27,934.83. The American Security and Trust Company was named executor. Mrs. Loomis is represented by Attorneys Ellis and Donaldson.

Elected Mayor of New York.

Mr. Low was nominee of the Citizens' Union for Mayor of New York in 1897, but as there was no fusion in the campaign, the Tammany forces defeated both Gen. Tracy, the republican nominee, and Mr. Low.

A young Republican Club was organized in Brooklyn to promote the Garfield campaign and Mr. Low was selected as president of the club. Municipal affairs in Brooklyn were at that time in a bad way, suffering from the effects of
